YESTERDAY was the anniversary of the birthday of St. John the Evangelist, famous among Free Masons. He had a pleasant birthday, had John. School Examination.

The review in Miss Adams' room occurred yesterday and was exceedingly interesting. Quite a large number of vistors was present. The children, clad in their holiday attire, were in their seats some time before the usual time of opening school, ready for the coming test. After the singing of several songs with much sweetness and a great deal of enthusiasm, the more serious affairs of the day began with exercises in mental arithmetic, followed by recitations in reading, spelling, geography, and general questions in ornithology, history, physiology, morals and manners. The examination upon all of these topics was creditable to teachers and pupils, and nnusually entertaining to the many friends who were present. One feature in the examination of this class we wish to particularize, viz.: requiring each pupil to establish his claim for merit pupil to establish his claim for ment by grappling with an equal number of questions. Let the pupil be taught to look forward to such. We commend in the heartiest manner the plan of furnish-ing our pupils with a fund of general in-formation spart from the text book, and we trust that the instructors in the higher grades will continue we trust that the instructors in the higher grades will continue and enlarge this excellent plan. The following is the order of general ex-ercises in this class: Dec., "Cæsar Cross-ing the Rubicon," Clayton Davies. Dec., "Lord Byron's first Vindictive Speech," Arthus Pechner. A FIRST CLASS EXHIBITION OF ATH-LETIC EXERCISES .- We had a visit yesterday from Monsieur Bauer, the famous wrestler and gymnast. He is a firmly knit, muscular, handsomely developed man of 29. He weighs, he says, 186 pounds. There isn't an ounce of spare pounds. There isn't an ounce of spare flesh on his body or limbs. He is a native of Alsace. Little English in his native of Alsace. Little English in his speech. A genuine Fieuchman in all his acts, tone and demeanor. Quite a polite and pleasant man, withal. Been raslin there seven year, so he says, and never yet lost a match. He came to Carson by invitation of some countrymen of his. He will, with his pupil, M. Regmier, give an exhibition of his gymatical accomplishments at the Carson. nastical accomplishments at the Carson Theater on the evening of July 4. Following is a list of the Dolly Varden nominations at Sacramento: For Governor, John Bidwell, of Butte, Lientenant Governor, R. Pacheco of San Luis Obispo; Secretary of State, W. Roush of Placer: Controller, Lauren E. Crane of Sierra; Treasurer, Ferdinand Baher of Shasta; Attorney General, Peter Van Clief of Yuba; Surveyor General, E. Twitchell of Sacramento; Clerk of the Supreme Court, Paul Morrill of Sacramento; Superintendent of Public Instruction, J. W. Gwinn of Los Angeles.

Judge Neilson of the Brooklyn court has denied the application of the plaintiff to reopen the case. His charge to the jury is brief, simple and fair. It is as follows:

At this hour it is your duty to accept fully and without a shade of mental reservation the rules of law stated, but on the other hand I wish to pay a like de-gree of respect to your great office. You are the sole judges of the weight of tes-timony of and the creditability of wit-nesses. A sense of this restrains me from commenting on proofs at large and from indicating to you what my own opinions may be on questions of fact in-volved. Your recognition of that as your relation to the court and to the cause is due to the oath you have taken to render a true verdict according to the evi-dence. My recognition of it is due not only to you but to these parties, as the moral force of a verdict depends largely on the fact that it is the unbiased judg-ment of twelve men selected from the ment of twelve men selected from the body of our citizens and in the mest solemn form known to our laws consecrated to the service. He then stated that counsel had extracted so much testimony from the 111 witnesses that if he was to quote it to them they would not reach their deliberation until days hence, weary and exhausted. The pleadings had been stated in their hearing and they understood that the charge of adultery lay at the bottom of it. Judge Neilson said that some testimony relates to the principal question. timony relates to the principal question in issue; some of it to the credit one to certain witness; some of it to the mere question of damages. The pleadings have been stated in your hearing, and you perceive the charge of adultery is denied by the answer and lies at the foundation of the case. Upon the issue thus joined the burden of proof rests on the plaintiff. You are also to understand that evidence should be such as to carry conviction to the minds of just and pru-dent men; should point to actual guilt more directly than to any other reasonable hypothesis. The wrong charged in this complaint might be proved by direct or by circumstantial evidence, but such a charge is not usually proved, or indeed probable by direct and positive evidence. The reason is obvious in most instances where under social restraints an apparent proper intimacy degenerates into licen-tious acts and the evil intent and life put on the garb of innovence. All such cases are involved in doubt and cases are involved in doubt and difficulty.
